

Online Partner Capacity Strengthening: Inspiring Change

6-week online training course

Course summary

Organisational change is much harder than it looks, and catalysing genuine, positive and sustainable change with partners requires much more than a single assessment or a mechanistic process. The aim of this course is to help inspire more effective and equitable capacity strengthening and organisational development support to partner organisations, including when working remotely.

This course introduces participants to the core skills needed to support a partner through an organisational change process. It will give you an understanding of the true nature of organisations, and how to assess capacity strengthening needs. You will explore methods and tools for capacity strengthening. You will learn how power dynamics impact on organisational change processes in partnerships, and identify how to promote partner ownership. You will also have the opportunity to explore your own strengths and weaknesses as an external change agent, and identify new practical approaches to try.

Who is this training course suitable for?

This course is particularly relevant to programme staff with some experience in capacity strengthening and/or organisational development support work with international partners, which they would like to build on. It is also relevant to staff who are intending to engage in some form of capacity strengthening support work in the near future.

What is the course format?

The online Partner Capacity Strengthening course is a facilitated, interactive and collaborative e-learning experience. You will have access to:

- Six interactive live sessions via Zoom facilitated by our highly experienced consultant and an instructional producer, including small groups discussions and exercises. Each session lasts 90 minutes
- All programme materials on the INTRAC e-learning platform, including videos and self-paced activities
- Opportunities to interact with other participants on the programme through the platform discussion forums and the live sessions
- Feedback on your individual assignment

What are the objectives?

By the end of the training participants will be able to:

- Explain how to assess a partner's capacity strengthening needs
- Identify how to increase partner ownership of any change process
- Recognise how power dynamics impact on the effectiveness of capacity strengthening work with partners, and what to do about this
- Identify a range of different capacity strengthening tools and approaches
- Understand how to plan capacity strengthening initiatives with partners
- Analyse which capacity strengthening initiatives are working and well, and how to overcome common capacity strengthening challenges
- Explore participants own strengths and weaknesses as external change agents, and identify new strategies that can help them to increase their effectiveness

Course content and structure

Session 1: Assessing capacity strengthening needs	<ul style="list-style-type: none">• Overview of different data gathering methods for assessing capacity strengthening needs – at distance & in person• Analysing the benefits and constraints of standardised tools for organisational assessment• Identifying effective assessment questions, and practicing observation skills
